

I have been receiving dozens of harassing calls on a daily basis for about 8 or so months now from the same group of numbers (possibly an automatic dialer). All the numbers are coming from "NEWBEDFORD,MA", the numbers change constantly so blocking them has become a chore within itself. When answered, the line only puts out a pinging sound like a fax machine. Please help, this is driving me crazy! Here is a list of some of the numbers: 508-993-0549, 508-990-0149, 508-994-1866, 508-990-1641, etc. Thanks for you help.
